Glands (sold in sets of 2)

Different sealing glands are needed for each diameter of material to be run. Glands should be checked continually for wear. Sealing glands will wear faster than support glands. It is suggested to purchase 6 pairs of glands at a time.

Old Part #	Description	MAC Part #	Quantity
GL-1-0	Sealing Gland Blanks (for 763 and 764 Tanks)	8025067-1	
GL-2-0	Support Gland Blanks (for 763 and 764 Tanks)	8025067-2	
GL-9-0	Sealing Gland Blanks (for 766 and 767 Tanks)	8026754-1	
GL-10-0	Support Gland Blanks (for 766 and 767 Tanks)	8026754-2	

Gland sets for other tank models are available.

Standard Duty Tester and Idler Parts

Damaged idler and drive wheels should be replaced immediately. All wheels should be checked at least monthly. Replacement of all wheels should be done periodically and when setting up for especially sensitive testing.
